1. Time and connection method of my first login
I logged in at 10:52 am On Nov 10th for the first time using SSH connection. For my windows OS in particular, I downloaded PuTTY as a ssh client. I used midway1 as my host.
2. Connection method for future login
I'll continue with the same login method for all future periods.
3. What do you need to type at login prompt
Upon login, I was asked to type in user name, which is my CNet ID, and later my password, which is again my CNet password.
